SUBJECT: Cancellation of Solicitation number HQ0034-19-R-0011 – JASON National Security Research Studies

Dear Mr. Rod Haddaway:

Washington Headquarters Services, Acquisition Directorate (WHS/AD) is canceling the solicitation number HQ0034-19-R-0011 for JASON National Security Research Studies. The requirement has changed from multiple studies being projected to only one study being needed for the Under Secretary of Defense, Research and Engineering (OUSD(R&E)). Because we only have a need for one study to complete, issuing a new Indefinite Delivery/Indefinite Quantity (IDIQ) contract vehicle does not make economic sense at this time.

A bilateral modification to extend the ordering period of the current IDIQ is enclosed with this letter. Subsequent to that a request will be issued for a proposal to commission a study on Electronic Warfare (EW). The current Program Management (PM) Task Order (TO) will not be extended, nor will a new PM TO be issued. The EW TO will combine the program management elements needed to support this specific EW study as well as the execution of the study itself. It is currently anticipated that the study will take place in the National Capital Region.

It is not the Government's intent to cancel the Spring Meeting. However we understand that the agenda and the purpose of the meeting will be impacted in light of this decision.

We appreciate all the time and resources that it took to propose for this solicitation. If you have any questions please contact Ms. Marge Niedzwicz at 703-545-3235 or email her at marge.a.niedzwicz.civ@mail.mil.

Sincerely,

Sharon A. Hilton
Contracting Officer
