

TABLE OF CONTENTS

Executive Summary	<i>i</i>
Introduction.....	1
1.0 The Biological Warfare Threat	1
1.1 Characteristics of Biological Agents.....	3
1.2 The Potential Impact of Biotechnology and Genetic Engineering	4
2.0 Countering the BW Threat.....	8
2.1 Utility of Medical Countermeasures.....	8
2.2 Utility of Other Countermeasures.....	12
3.0 Conclusions.....	17
4.0 Recommendations	17
Selected Bibliography.....	18
 <i>Annexes</i>	
A Highlights of the “Biotechnology Revolution”: 1953–present.....	A-1
B Selected Biotechnology Terms.....	B-1

TABLES

1. Validated BW Threat Agents.....	3
2. Characteristics of Biological Agents	3
3. Comparative Lethality of Botulinum Toxin and VX.....	4
4. Aerobiological Decay	6

FIGURES

1. Balancing Characteristics of a BW Agent	5
